Re: Constantine Project (FERC No. P-10661)  
Preliminary Application Document  
Proposed Project Operations

Dear Secretary Bose:

Indiana Michigan Power Company (I&M) filed its Notice of Intent and Preliminary Application Document (PAD) with the Federal Energy Regulatory Commission (Commission) for the Constantine Project (FERC No. P-10661) on June 4, 2018. Although Section 4.4 of the PAD included a description of the existing project operations, the PAD does not include a discussion of proposed project operations. The purpose of this letter is to convey to the Commission that I&M does not propose any changes to project operations.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "E. White BP - for", written over the printed name of Jonathan M. Magalski.
